Dear Sir:

This response is filed in response to the requirement to elect species of March 9, 2010. The Examiner has indicated that Species I -V are set forth in the present claims and requires an election of species to be examined, further contending that no claims are generic. In response to the requirement to elect species, Applicant elects Species I, Figs. 1-9. The Examiner further requires that for a reply to the present requirement to be complete, it must also include an identification of the claims encompassing the elected species. As such, Applicant identifies Claims 2, 6, 9, 10, 14, 15, and 18-27 as encompassing the elected species.

Applicant respectfully reserves his entitlement to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR §1.141 in the event allowance of a generic claim is ultimately achieved.
